Alejo Carpentier and His Early Works Frank Janney, 1981 Published by Boydell & Brewer Inc.

Production-Comprehension Asymmetries in Child Language Angela Grimm, Anja Müller, Cornelia Hamann, Esther Ruigendijk, 2011-10-27 The workshop Production-Comprehension Asymmetries in Child Language held in Osnabrück in 2009 is the starting point for this book. The workshop developed from the observation that children's production skills appear to precede their comprehension skills in a number of phenomena, e.g. pronouns or negation. The volume provides cross-linguistic evidence for such asymmetric development and investigates grammatical and methodical explanations of the observed asymmetries.

Adivinanzas Y Diseños de Colcha Dora Gonzales de Martínez, 1994 The riddles in this book represent a wide variety of types from the poetic to those with hidden or double meaning. All of the riddles, however, have the flavor of daily life in New Mexico.

The Pipil Language of El Salvador Lyle Campbell, 2011-07-22 The series builds an extensive collection of high quality descriptions of languages around the world. Each volume offers a comprehensive grammatical description of a single language together with fully analyzed sample texts and, if appropriate, a word list and other relevant information which is available on the language in question. There are no restrictions as to language family or area, and although special attention is paid to hitherto undescribed languages, new and valuable treatments of better known languages are also included. No theoretical model is imposed on the authors; the only criterion is a high standard of scientific quality. To discuss your book idea or submit a proposal, please contact Birgit Sievert.
