Do Good Fences Make Good Neighbors? Brent L. Sterling, 2009-10-30 A number of nations, conspicuously Israel and the United States, have been increasingly attracted to the use of strategic barriers to promote national defense. In *Do Good Fences Make Good Neighbors?*, defense analyst Brent Sterling examines the historical use of strategic defenses such as walls or fortifications to evaluate their effectiveness and consider their implications for modern security. Sterling studies six famous defenses spanning 2,500 years, representing both democratic and authoritarian regimes: the Long Walls of Athens, Hadrian's Wall in Roman Britain, the Ming Great Wall of China, Louis XIV's Pré Carré, France's Maginot Line, and Israel's Bar Lev Line. Although many of these barriers were effective in the short term, they also affected the states that created them in terms of cost, strategic outlook, military readiness, and relations with neighbors. Sterling assesses how modern barriers against ground and air threats could influence threat perceptions, alter the military balance, and influence the builder's subsequent policy choices. Advocates and critics of strategic defenses often bolster their arguments by selectively distorting history. Sterling emphasizes the need for an impartial examination of what past experience can teach us. His study yields nuanced lessons about strategic barriers and international security and yields findings that are relevant for security scholars and compelling to general readers.

The UAW's Southern Gamble Stephen J. Silvia,2023-05-15 The UAW's Southern Gamble is the first in-depth assessment of the United Auto Workers' efforts to organize foreign vehicle plants (Daimler-Chrysler, Mercedes-Benz, Nissan, and Volkswagen) in the American South since 1989, an era when union membership declined precipitously. Stephen J. Silvia chronicles transnational union cooperation between the UAW and its counterparts in Brazil, France, Germany, and Japan and

documents the development of employer strategies that have proven increasingly effective at thwarting unionization. Silvia shows that when organizing, unions must now fight on three fronts: at the worksite; in the corporate boardroom; and in the political realm. The UAW's Southern Gamble makes clear that the UAW's failed campaigns in the South can teach hard-won lessons about challenging the structural and legal roadblocks to union participation and effectively organizing workers within and beyond the auto industry.
