Star Trek: Voyager: Day of Honor #3: Her Klingon Soul Michael Jan Friedman, 2002-07-21 Even light-years from the Klingon Empire, the Day of Honor remains an occasion of great importance. And sometimes honor is found in the most unexpected places... B'Elanna Torres has never cared for the Day of Honor. Ashamed of her Klingon heritage, she regards the holiday as an unwanted reminder of all she has struggled to repress. Besides, something awful always seems to happen to her then. Her bad luck seems to be running true to form when she and Harry Kim are captured by alien slavers. Imprisoned by the enigmatic Risatti, forced to mine for deadly radioactive ore, Torres will need all of her strength and cunning to survive—and her honor as well. ™, ®, & © 2014 CBS Studios, Inc. Proactive Support of Labor Paul Reuwer, Hein Bruinse, Arie Franx, 2015-08-25 The right for every woman to have a 'natural' birth has been recognized for many years, yet surgical interventions continue to rise and, paradoxically, complaints

and the degree of litigation for disappointing labor outcomes escalate. Proactive Support of Labor enhances professional skills by providing the expertise for preventing long labors - the root-cause of traumatic birth experiences and the cesarean pandemic. Step-by-step, evidence-based guidance on expert care and support during labor is given. Emphasis is placed on pre-labor education, personal attention, and well-defined birth planning - including strict diagnoses and timely corrective measures in abnormal labor - and constant audit of all procedures and outcomes. Striking a new balance between natural birth and intervention, and invariably enhancing women's satisfaction with the childbirth experience, the fully updated revision of this groundbreaking work will be essential reading for obstetricians, midwives, nurses, and trainees. Looking for Earths Alan Boss, 2000-03-09 The ultimate insider's account of astronomy's fantastic voyage in search of brave new worlds in faraway galaxies Highly recommended. -Science and Technology Full of humor, heartbreak, and a deep understanding of the ardor and luck that compose years of research. . . . The reader becomes not merely a receiver of Boss's vision, but a fellow explorer. -Astronomy A rewarding account. -Scientific American Are we alone in the universe . . . or are there other planets generating and sustaining life? The question may be as old as civilization, but in the twilight of a century marked by countless frustrated quests to find other solar systems, several teams of pioneering astronomers have at last discovered a rich crop of mammoth, Jupiter-sized gas planets -the first compelling evidence that there may indeed be life in other galaxies. In Looking for Earths, a prominent planetary scientist takes us along on this thrilling hunt for new life, revealing the behind-the-scenes stories of scientific determination, frustration, and triumph. Ushering us to the mountaintop observatories that house the world's most powerful telescopes, and into the tension-filled scientific meetings where new results are announced and old results overturned, Alan Boss brings the process of exploration vividly alive. Experience the roller-coaster ride as intricate observations of minuscule stellar wobbles raise hopes that at last a true planet has been found, only to be almost immediately shattered by more powerful observations. Boss also introduces the principal players whose dreams defied all odds and made the first major discovery possible. Like no other book, Looking for Earths captures the lively tension between theory and observation that defines cutting-edge astronomical discovery, along with the heated battles that will determine the direction of big-ticket American astronomy for years to come. You will find no better introduction to one of the truly revolutionary developments in modern astronomy. -Natural History

I'm Your Girl J.J. Murray, 2010-03-01 For public library clerk Diane Anderson, reading romance novels and living vicariously is far easier than attracting a flesh-and-blood man of her own. It seems she's too voluptuous in the wrong places to attract the kind of black man her mama requires as a son-in-law. . .and just exotic enough to attract the kind of white man Mama forbids. But there's something about that lost-looking guy who comes into the library one afternoon. And when he reveals that Diane is his muse, well, she can't help being intrigued. . . After months spent mourning a personal tragedy, novelist Jack Browning is struggling to get back to work. Under pressure to write his second novel, Jack hits the library for ideas. The clerk who helps him is smart, sassy--and curvy in all the right places. He finds himself thinking of Diane as he creates the heroine of his book. And soon, she's knocking down the wall he'd built around himself, becoming the inspiration for his art. . .and maybe even for his life. . . Murray writes a gentle romance about cultural differences and deep commonalities in a unique tale about white-black relationships. --Booklist
