The Dreamt Land Mark Arax,2020-04-07 A vivid, searching journey into California's capture of water and soil—the epic story of a people's defiance of nature and the wonders, and ruin, it has wrought Mark Arax is from a family of Central Valley farmers, a writer with deep ties to the land who has watched the battles over water intensify even as California lurches from drought to flood and back again. In *The Dreamt Land*, he travels the state to explore the one-of-a-kind distribution system, built in the 1940s, '50s and '60s, that is straining to keep up with California's relentless growth. *The Dreamt Land* weaves reportage, history and memoir to confront the Golden State myth in riveting fashion. No other chronicler of the West has so deeply delved into the empires of agriculture that drink so much of the water. The nation's biggest farmers—the nut king, grape king and citrus queen—tell their story here for the first time. Arax, the native son, is persistent and tough as he treks from desert to delta, mountain to valley. What he finds is hard earned, awe-inspiring, tragic and revelatory. In the end, his compassion for the land becomes an elegy to the dream that created California and now threatens to undo it.

Records of a California Family Lewis Carstairs Gunn,Elizabeth Le Breton Gunn,1928 Lewis Carstairs Gunn (1813-1892) and Elizabeth LeBreton Stickney (1811-1906) made their home in Philadelphia after their marriage in 1839, and

Lewis left for California in 1849, with his wife and four children joining him two years later. Records of a California family (1928) begins with Lewis Gunn's journal describing his journey from New Orleans to Mexico and then to San Francisco and his life as a miner on the San Joaquin, 1849-1850. Mrs. Gunn's letters chronicle her voyage round the Horn with four children in 1851 and their life in Sonora (1851-1861), where her husband published the Sonora Herald and owned a drugstore. She records the affairs of a family (housework, schools, medical care), newspaper publishing, and politics. The Gunns were longtime abolitionists, and Lewis's role in keeping California a free state is detailed. In 1861 the family moved to San Francisco, and the book closes with chapters by Anna Marston summarizing their life there in the 1860s and their later experiences in San Diego.

The Dream Endures Kevin Starr, 2002-11-28 What we now call the good life first appeared in California during the 1930s. Motels, home trailers, drive-ins, barbecues, beach life and surfing, sports from polo and tennis and golf to mountain climbing and skiing, sportswear (a word coined at the time), and sun suits were all a part of the good life--perhaps California's most distinctive influence of the 1930s. In *The Dream Endures*, Kevin Starr shows how the good life prospered in California--in pursuits such as film, fiction, leisure, and architecture--and helped to define American culture and society then and for years to come. Starr previously chronicled how Californians absorbed the thousand natural shocks of the Great Depression--unemployment, strikes, Communist agitation, reactionary conspiracies--in *Endangered Dreams*, the fourth volume of his classic history of California. In *The Dream Endures*, Starr reveals the other side of the picture, examining the newly important places where the good life flourished, like Los Angeles (where Hollywood lived), Palm Springs (where Hollywood vacationed), San Diego (where the Navy went), the California Institute of Technology in Pasadena (where Einstein went and changed his view of the universe), and college towns like Berkeley. We read about the rich urban life of San Francisco and Los Angeles, and in newly important communities like Carmel and San Simeon, the home of William Randolph Hearst, where, each Thursday afternoon, automobiles packed with Hollywood celebrities would arrive from Southern California for the long weekend at Hearst Castle. The 1930s were the heyday of the Hollywood studios, and Starr brilliantly captures Hollywood films and the society that surrounded the studios. Starr offers an astute discussion of the European refugees who arrived in Hollywood during the period: prominent European film actors and artists and the creative refugees who were drawn to Hollywood and Southern California in these years--Igor Stravinsky, Arnold Schoenberg, Man Ray, Bertolt Brecht, Christopher Isherwood, Aldous Huxley, Thomas Mann, and Franz Werfel. Starr gives a fascinating account of how many of them attempted to recreate their European world in California and how others, like Samuel Goldwyn, provided stories and dreams

for their adopted nation. Starr reserves his greatest attention and most memorable writing for San Francisco. For Starr, despite the city's beauty and commercial importance, San Francisco's most important achievement was the sense of well-being it conferred on its citizens. It was a city that magically belonged to everyone. Whether discussing photographers like Edward Weston and Ansel Adams, hard-boiled fiction writers, or the new breed of female star--Marlene Dietrich, Jean Harlow, Bette Davis, Carole Lombard, and the improbable Mae West--*The Dream Endures* is a brilliant social and cultural history--in many ways the most far-reaching and important of Starr's California books.

California Carey McWilliams, 1999-04-02 In 1949, lawyer, historian, and journalist Carey McWilliams stepped back to assess the state of California at the end of its first one hundred years—its history, population, politics, agriculture, and social concerns. As he examined the reasons for the prodigious growth and productivity that have characterized California since the Gold Rush, he praised the vitality of the new citizens who had come from all over the world to populate the state in a very short time. But he also made clear how brutally the new Californians dealt with the Indian problem, the water problem, and the need for migrant labor to facilitate California's massive and highly profitable agricultural industry. As we look back now on 150 years of statehood, it is particularly useful to place the events of the past fifty years in the context of McWilliams's assessment in *California: The Great Exception*. Lewis Lapham has written a new foreword for this edition.

Stories of California Ella M. Sexton, 2019-12-16 *Stories of California* by Ella M. Sexton had the intent to recount in simple accurate narratives the early conditions and subsequent development of California. A Spanish story written four hundred years ago speaks of California as an island rich in pearls and gold. Only black women lived there, the story says, and they had golden spears, collars and harnesses of gold for the wild beasts that they had tamed to ride upon. This island was said to be on a ten days journey from Mexico, and was supposed to lie near Asia and the East Indies. Among those who believed such fairy tales about this wonderful island of California was Cortes, a Spanish soldier and traveler.

A La California Albert S. Evans, 2021-04-11 *Á la California* is an exciting volume of recollections and anecdotal history by Albert S. Evans. He starts by taking the readers on tour from the Sierra Morena through the San Andreas Valley, south to Pescadero and Santa Cruz, up the Napa Valley and Mount St. Helena. This work contains several chapters on San Francisco, focusing on the legends of the Barbary Coast and Chinatown and stories of miners in the Gold Rush.
