George Avlonitis,Paulina Papastathopoulou

I Will Survive Gloria Gaynor,2014-03-11 *I Will Survive* is the story of Gloria Gaynor, America's Queen of Disco. It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including Honey Bee, I Got You Under My Skin, Never Can Say Goodbye, and the song that has immortalized her, I Will Survive, which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

Product and Services Management George Avlonitis,Paulina Papastathopoulou,2006-04-11 `A text that successfully bridges the gap between academic theorizing and practitioner applicability because it uses multiple real-world examples/mini-cases of management techniques to illustrate the well-researched academic theoretical foundations of the book' - Creativity and Innovation Management `A complete and useful treatment of the domain of product and service decisions. This book is unique in its treatment, dealing with product and service portfolio evaluation, new product/service development and product/service elimination in an integrated manner. Enlivened by many mini-cases, the book provides a soup-to-nuts approach that will prove very attractive for students and be a valuable reference for managers as well. Highly recommended' - Gary L Lilien, Distinguished Research Professor of Management Science, Penn State University `Product and Services Management (PSM) is a welcome, up to date summary of the key issues facing firms in developing and refreshing their portfolios. The examples and cases bring the academic arguments clearly into focus and demonstrate the crucial role of PSM in leading the overall strategy of the firm' - Professor Graham Hooley, Senior Pro-Vice-Chancellor, Aston University, Birmingham `Managers responsible for and students interested in product portfolio decisions previously had to consult

several sources for obtaining up-to-date information; books on new product development, articles on service development, readers on product management, and frameworks for product evaluation and termination. With the book *Product and Services Management* the reader obtains four-in-one. Avlonitis and Papastathopoulou reveal in a compelling and comprehensive manner why product decisions are the cornerstone of modern marketing and business, and illustrate the theory with numerous mini-cases from Europe and elsewhere. A must read for everyone with a passion for products' - Dr Erik Jan Hultink, Professor of New Product Marketing, Delft University of Technology This book provides a holistic approach to the study of product and services management. It looks at the key milestones within a product's or service life cycle and considers in detail three crucial areas within product management, namely product/service portfolio evaluation, new product/service development and product/service elimination. Based on research conducted in Europe and North America, this book includes revealing cases studies that will help students make important connections between theory and practice. The pedagogical features provided in each chapter include chapter introduction, summary, questions and a further reading section. Additional material for instructors include PowerPoint slides and indicative answers to each chapter's questions. This book is written for undergraduate and postgraduate students of business administration who are pursuing courses in marketing, product portfolio management, new product development and product policy.

Brand Failures Matt Haig, 2005 It's not just smaller, lesser-known companies that have launched dud brands. On the

contrary, most of the world's global giants have launched new products that have flopped - spectacularly and at great cost. Haig organizes these 100 failures into ten types which include classic failures (e.g., New Coke), idea failures (e.g., R.J.Reynolds' smokeless cigarettes), extension failures (e.g. Harley Davidson perfume), culture failures (e.g., Kellogs in India), and technology failures (e.g., Pets.com).
